Section 1: Identify Your Work Values

Professional Development Guide - Workbook

What are your intrinsic values?

Intrinsic values are the "inside" qualities that make your work meaningful to you, apart from any external reward. Describe a few intrinsic qualities that make your ideal work meaningful to you. *Examples: I learn a lot from my job; I get to be competitive at work; My work gives me a sense of achievement; My organization makes me feel like I'm part of a tradition; I'm happy when I'm at work.*

What are your extrinsic values?

Extrinsic values are the qualities that you see as external rewards for the work you do. Whether or not you find your work personally meaningful, it can still have extrinsic value to you. Describe a few of the external rewards you get from your ideal work.

Examples: job security, compensation, promotions or recognition.

What are your lifestyle values?

Your lifestyle values describe your personal preferences about where you live or how you like to spend your leisure time. How much a particular job or profession allows you to enjoy the lifestyle you prefer might influence your decision about whether it is right for you. Describe a few of your lifestyle values.
